---	---

1. Introduction

Department of Veterans Affairs (VA) has a need to improve the efficiencies of the outpatient medical scheduling processes through improved visibility of information. VA has created a comprehensive scheduling solution to modernize the Veterans Health Information Systems and Technology Architecture (VistA) Scheduling (VS) product.

1.1. Purpose

The purpose of this document is to provide a summary of the enhancements and defect corrections that make up VS Graphical User Interface (GUI) Release 1.7.27.1. The release software package is comprised of the following:

- VS GUI application 1.7.27.1
- VistA M patch SD*5.3*819

1.2. Audience

This document targets the administrators and users of the VistA Scheduling package.

2. This Release

Please see [Features and Functionality](#) for a summary of the enhancements and defect corrections implemented with VS GUI Release 1.7.27.1 and VistA patch SD*5.3*819.

3. Features and Functionality

The following subsections describe the features included in the VS GUI 1.7.27.1 package and VistA patch SD*5.3*819.

3.1. Enhancements Implemented and Defects Fixes

Table 1 lists the enhancements implemented and defects corrected in VS GUI Release 1.7.27.1. The work item ID is the Jira issue number.

Table 1: Enhancements and Defects Fixes

Work Item ID	Summary of Change
VSE-2865	SDES GET USRPROFILE missing security keys and menu options
VSE-2869	Vista Error Processing EAS Tracking Number
VSE-3082	Context Menu - 508 - Keyboard Navigation for Context Menu.
VSE-3115	Frontend: App Freeze/Crash When Adding a User to a Clinic
VSE-3127	VistA: Fix slowness caused by large list of privileged users for a restricted clinic
VSE-3155	VistA: Create a new "modality" field in SDEC APPT REQUEST (#409.85) file
VSE-3160	VS GUI: Add "Day" View to User Preferences
VSE-3161	UI: Add Loading Indicator to Calendar for Visually Impaired User
VSE-3162	UI: Enable JAWS to Read Specific Calendar View

Work Item ID	Summary of Change
VSE-3198	VistA: Create a search RPC for Letter
VSE-3199	VistA: Create RPC to search for Provider
VSE-3211	VistA: Create a new RPC for privileged user search
VSE-3212	VistA: Create new RPC to get Division
VSE-3337	VistA: Add RPCs to the SDECRPC menu option

4. User Documentation

The documentation distributed with VS GUI Release 1.7.27.1 is available for download from the VA Software Document Library (VDL).

5. Known Issues

All known issues resolved by this release were documented in ServiceNow tickets and/or Jira issues as part of the ongoing, post-warranty, sustainment effort. Appropriate issues, workarounds, and step by step resolutions are documented in Knowledge Base articles and included in the searchable ServiceNow Knowledge Base hosted by the VA Enterprise Service Desk (ESD).
